

C. Devi Parameswari

Zoho Developer · Extension Specialist · PhD

Srivilliputhur, Tamil Nadu, India · +91 7639530251 · deviparameswari6@gmail.com

LinkedIn · Portfolio

Software Developer with 4+ years of experience across the Zoho ecosystem, building marketplace extensions, CRM automation, and API integrations. Growing full-stack expertise with React JS and Node.js alongside core Deluge scripting and workflow automation. Holds a PhD in Computer Science with published research across blockchain and predictive analytics.

Skills

Zoho Platform: Zoho CRM, Zoho Flow, Deluge Scripting, Zoho Analytics, Zoho Forms, Zoho Bookings, Zoho Sites, Extensions Development

Integrations & Automation: API Integrations, CRM Automation, Gallabox, Workflow Automation, Third-Party Integrations

Programming & Web: HTML/CSS, Core JavaScript, React JS, Node.js, AngularJS, PHP, Java, C, SQL

Research & Data: Solidity, Ethereum, MongoDB, LSTM, BiLSTM, GRU

Work Experience

Software Developer

Oct 2024 – Present

AVN Arogya Ayurvedic Hospital, Madurai

- Develop and maintain Zoho CRM applications using Deluge scripting, workflows, automation, Zoho Forms, and Zoho Analytics.
- Build API integrations between Zoho CRM, Gallabox, and external platforms to support CRM automation and real-time data flow.
- Enhance patient engagement through automated messaging and design Gallabox solutions to improve business operations.
- Resolve database issues to improve data reliability and reduce errors.

Software Developer

Sep 2022 – Sep 2024

Yaali Bizapln Solutions — Zoho Partner, Chennai

- Built responsive web interfaces using HTML, CSS, JavaScript and developed SPAs with AngularJS.
- Developed Zoho Marketplace extensions, automated workflows, and customized CRM modules using Deluge scripting.
- Integrated Zoho CRM with third-party applications for seamless data exchange.
- Tested, debugged, and maintained scripts, delivering reliable solutions tailored to client requirements.

PhD Researcher

Feb 2019 – Aug 2022

Kalasalingam University, Krishnankoil, Tamil Nadu

- Designed and implemented an intelligent public distribution system using blockchain and deep learning.
- Developed Solidity smart contracts on Ethereum using Remix IDE for secure, transparent transactions.
- Built a web application with MongoDB for scalable, secure data storage.
- Applied LSTM, BiLSTM, and GRU prediction models for system intelligence and forecasting.

Education

PhD in Computer Science

2019 – 2025

Kalasalingam University

MSc in Computer Science

2016 – 2018 · CGPA: 8.9/10

Ayya Nadar Janaki Ammal College

BSc in Computer Science

2013 – 2016 · CGPA: 8.1/10

Ayya Nadar Janaki Ammal College

Project Work

Magento for Zoho Mail: Integrated Magento with Zoho Mail to streamline email communication, workflow efficiency, data synchronization, and operational performance. (Magento, Zoho Mail, API)

Xero for Zoho CRM: Automated financial data synchronization and invoicing workflows between Xero and Zoho CRM. (Xero, Zoho CRM, Automation)

Salesforce for Zoho Bigin: Streamlined sales pipeline management by synchronizing leads, contacts, and deals between Salesforce and Zoho Bigin. (Salesforce, Zoho Bigin, CRM)

QuickBooks Online for Zoho Bigin: Automated financial workflows and synchronized invoices, payments, and customer data with Zoho Bigin. (QuickBooks, Zoho Bigin, Finance)

Zoho CRM Automation & API Integrations: Developed and configured multiple CRM workflow automations to streamline business and patient management processes. Integrated Zoho CRM with Gallabox, Exotel, and external platforms using REST APIs and webhooks. Configured automated workflows between Gallabox and Zoho CRM, implemented call-related CRM automation through Exotel, and used Deluge scripting for custom business logic and process automation. (Zoho CRM, Deluge Scripting, Zoho Flow, Gallabox, Exotel, REST API, Webhooks, API Integration, Workflow Automation, Data Synchronization)

Reporting, Analytics & Data Management: Created comprehensive reports and dashboards using Zoho Analytics and Google Apps Script to improve data visibility and support business decision-making. Used Zoho Forms for automated data capture into Zoho CRM and developed API-based solutions for data synchronization. Worked extensively on reporting, data management, and automation to reduce manual processes and improve operational efficiency. (Zoho Analytics, Google Apps Script, Zoho Forms, Zoho CRM, JavaScript, REST API, Data Management, Reporting & Dashboards, Data Automation)

Research & Publications

- A secure and efficient public distribution system using Ethereum-based blockchain technology
- Public Distribution System Based on Blockchain Using Solidity

- A secure and intelligent public distribution system (SIPDS) based on deep learning and Ethereum using predictive analytics for supply chain services
- Healthcare Data Protection Based on Blockchain using Solidity
- Decentralized Public Distribution System on the Ethereum Blockchain Interact with MyEtherWallet

Awards and Certifications

- Completed MERN Stack Development certification course.
- 1st place in Quiz at Confluence, 2016.
- 2nd place (Collage) in college association, 2014.
- Paper presentation at the National Conference on Recent Trends in Data Mining, 2017.
- Publications on blockchain technology across conferences, book chapters, and journals.
- Attended workshops, completed online courses, and participated in technical events.
- Diploma in PHP; Crash Course on C.
